

COSMO BALANCING LAW

PREFACE

This theory insists that unfortunate missing of meaning in Newton III Law. The Diagrammatic representation insists the wrong sentence in Newton III Law.

Newton III Law

Case 1

“EVERY ACTION HAS EQUAL AND OPPOSITE REACTION”.

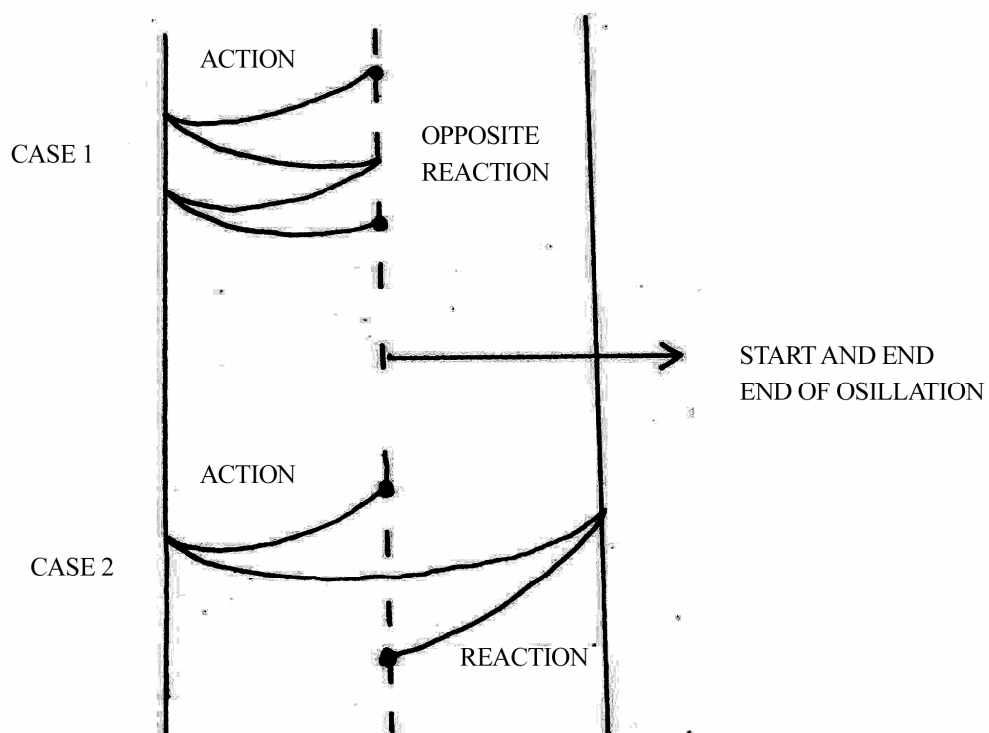

COSMO BALANCING LAW:

Case 2

“EVERY ACTION HAS EQUAL AND OPPOSITE ACTION”.

(or)

“EVERY ACTION HAS EQUAL REACTION”.

Pendulum bob oscillation

CONCLUSION

From the above Pendulum bob oscillation state that Newton III Law have an extra word "Re" insist wrong meaning. So I corrected as "Cosmo Balancing Law" (i.e.,) In Newton III Law insist an in turn action involved. [i.e.] It means one action and an in turn action. It does not mean the reaction.
